## LKK SPARKLERS

### 2021 - 2022

### Principal's Sharing

*"Life is like a box of chocolate. You never know what you're gonna get."*

The above lines I quoted from the Oscar winning Hollywood film *Forest Gump* vividly described the mixed feelings of excitement and anxiety I had when I first set foot in LKKLPS over a decade ago.

Time flies! Over the years, LKKLPS has been evolving into a more dynamic and versatile school, where every LKKer is like a precious gem that glitters and sparkles in the dark!

Upon the introduction of the "We C.A.R.E." school motto this year, every effort is put on nurturing kids who are Confident, Affectionate, Reliable and Enthusiastic. We are determined to make the acronym go beyond a mere slogan. We strive to expose LKKers to the best learning experiences.

Whilst we aim to shoot for the stars, we need to take more down to earth steps to build our ladders that lead us to the stars. The key to success is FOCUS, another acronym that is worth keeping in mind.

"F" stands for Fearless. Be bold. Believe you can! Do not be afraid of failure. You cannot get rid of the failure unless you learn from it. Whenever there is a chance to learn, go for it. Whenever you find a way to help you excel, give it a shot! To share with you a quote from Michael Jordan, the famous NBA superstar,

*"I can accept failure, but I can't accept not trying."*

"O" represents Optimism. Stay positive. Always look on the sunny side. Life is full of ups and downs, and so is learning. Do not be frustrated even when you stumble. If you lose hope, you lose everything.

"C" is vital when it means Communication. Grasp every opportunity to learn the art of communication. It is more than just what you say or how you talk. It is the non-verbal expressions that count.

"U" is simply part of your daily life as it means Understanding. Everyone wants to be understood but to achieve this, we need to try our best to understand others. Active listening plays a crucial role in communication. Attention to details helps us to have a deeper understanding too.

"S", last but not least, Study. No one will deny that we all want a happy childhood, but that does not mean a childhood without ANY hard work. The two are by no means mutually exclusive. Quite the contrary, if you find the right way to study, you are able to grab the best time in life to enrich yourself! That indeed guarantees a lifetime of self-fulfillment and happiness.

Let's work together for a better tomorrow, embrace our vision and keep our FOCUS!

# HONG KONG SCHOOL DRAMA FESTIVAL 2021/22

Every year, our teachers and the ace team of budding actors and actresses put in a lot of effort to strive in Hong Kong School Drama Festival. This year is no exception. Due to COVID-19, the festival is carried out on Zoom. Students designed creative audio-visual effect with Zoom functions and filters when their drama was not performed on a physical stage. Their hard work and creativity have earned them many prizes and invaluable happy memories.

## Awards

# DRAMA TEAM MEMBERS' SHARING

## 5C ANTHONY GAN

When I started drama class, three things came to my mind: the topic about the drama, the role I will play, and who my teammates are. When Miss Tang started to explain, she told us that, "Don't aim at the awards. Instead, focus on how to play the roles assigned to you." At first, I had difficulties in playing the role of King Aladdin, because I didn't have any ideas of how to act like a king who is very serious and sarcastic at the same time. Therefore, in my spare time, I practised saying my lines and trying different facial expressions in front of the mirror. Steadily I started to master my character better.

When the performance day came, all of us did our best. It has been such a joyful, meaningful and memorable experience to me! I hope I can perform with my teammates on stage again in the future.

## 6A PHOEBE FONG

After the audition of this year's English drama team, I was glad that I was chosen to be one of the actors. At first, I was too shy to act. However, because of the encouragement of Miss Tang and other members, I could finally realistically act my character. We had some funny memories during our rehearsals. Once, one of us said her lines wrong. Her line was 'They took away my fine clothes and...' But she said it as 'They took off my fine clothes and...' We laughed at it for a long time! After joining the drama team, I found that my English speaking skills and acting skills are improved a lot.

## 6A ALICE LAM

This was the third time I joined the English Drama Team! This year, my roles are Snow White and Drizella. I like my roles very much. I had a lot of fun while performing the drama. We exchanged ideas on how to act better. I hope I can continue to share my love of acting to others when I go to secondary school.

## 6A KAYLA KWOK

This year, we couldn't have drama rehearsals at school, so we did it on Zoom at home. There were more problems than before. For example, some people were always late for the Zoom rehearsals, so we needed to extend the rehearsals. However, some people had classes right after the rehearsals. Luckily, we managed to read the script faster and faster, so we could finish a performance on time.

## 6A YUKI ZHU

It was my first time to join the drama festival and I really enjoyed it. Although it was a Zoom performance, I still had lots of fun. I believe I will continue to join the Drama Club in secondary school.

## 6C ETHAN LEUNG

Our drama performance was great! I had so much fun even though we had to do it on Zoom. My friends in the drama team are funny and nice. After finishing the performance, we felt amazed because we learnt so many words in such a short period of time!

# TELL-A-TALE CHILDREN'S STORYTELLING COMPETITION

This year, apart from incorporating storytelling elements in the CEO training, we also joined a new programme called Tell-A-Tale Children's Storytelling Competition. It consists of two online workshops, one about story writing and the other about storytelling, plus several rounds of internal and external story writing and storytelling competitions.

In the story writing workshop in December, students learnt to develop a story plot with different story elements, start a story in an intriguing way, and use a story map to create a story. With the interesting and meaningful input of the tutors, many outstanding and creative stories were received in the story writing competitions! Then in the storytelling workshop in March, students learnt a variety of storytelling techniques to engage the audience and they all immersed themselves in the interactive activities of the workshop.

All the participants of the story writing workshop can get a colourful and useful story writing kit.

### The mermaid

5A Venus Lam

Once there was a mermaid who decided to go back home. A fisherman thought she was a girl who fell into the sea. Therefore, he jumped into the sea to save her.

He swam deep but did not realize he couldn't breathe too long. Luckily, an immortal found him and granted him an hour to stay in the sea without breath.

He had a lot of encounters. Firstly, he was eaten by a big fish, so he was very scared and he swam out by himself. He complained to the fish for eating him. Therefore, the fish apologized about that.

Secondly, he was trapped by a jellyfish which chased after him. When he was about to be hit by its tentacles, a turtle saved him. He thanked it and went away.

Finally, the fisherman found the mermaid and she brought him to the land. They became friends ever after.

### Love is Giving

5E Valerie Sham

Once there was an orphan called Linabell. She was ten years old. She had not got a friend in the orphanage. Poor Linabell's mum died when she was a 2-month-old baby. She left her a magic wand which was made of pink diamonds.

One day, when she felt very lonely, she waved her magic wand. Suddenly, a beautiful fairy and her lovely pet appeared. "My name is Stella. The yellow fluffy puppy next to me is Cookie. We will be your best friend forever," said Fairy Stella.

After that, Linabell and Stella did voluntary work together to give love and care to the needy. Moreover, they brought with Cookie as the doctor pet to visit the elderly and patients in the hospital. Everyone loved them so much.

Finally, Linabell made a lot of new friends. She found the key to love and happiness - the most valuable thing her mum left her.

### Mary & Panda Fairy

6A Tiffany Guo

Today, the weather was extremely hot because humans are polluting the earth. Therefore, Mary turned on the air conditioner to 16°C after school.

Later, she turned on the TV and watched for half an hour. Then, she went to do her homework. However, she left the TV and air conditioner on. At that time, Panda Fairy was watching what Mary has done in the air. She felt really angry about that.

After she finished her homework, she got an ice cream from the refrigerator, but she didn't close the door! Therefore, the ice melted and the water was dripping. Panda Fairy was going to explode! She used magic to let all appliances have a mouth and complain to Mary. Mary was shocked and about to cry.

Finally, Mary knew her fault and promised not to waste any electricity.

## Category 2 (P.4)

### Butterflies moved home

4A Michelle Lam

Yesterday, I saw a butterfly I have never seen in Hong Kong. I mumbled, 'I've never seen this kind of butterfly in Hong Kong before. Is this a new type?' Suddenly, the butterfly answered, 'Of course! I used to live in Singapore, but Singapore's too hot for me now, so I moved to Hong Kong two months ago.' Feeling puzzled, I asked, 'Am I dreaming? How come a butterfly can talk? Why has Singapore become hot?' Butterfly answered quickly, 'You are not dreaming. Every creature has life so I can talk. Global warming is making the Earth hotter and hotter!' I was frightened and said, 'If the Earth is too hot for us, where can we move to?'

The butterfly flew away silently.

### A CAKE IN THE BOX?

4A Canning Mak

Once upon a time, there were two mice living together. Their names were Tommy and Thomas. Tommy was helpful but Thomas was lazy and greedy.

One day, when Thomas was eating a piece of cheese, Tommy came back home and said, "I find a present in the kitchen." "It must be a cake! Let's go and see." Thomas replied.

They sneaked into the kitchen and saw a red box tied with ribbons on the table. "It doesn't smell like a cake," Tommy doubted. "Whatever, there must be some food inside." Thomas said and climbed to the box.

Suddenly, a fat black cat popped up from the box. "I have waited for you for long. I'm hungry!" the cat meowed. The mice screamed and escaped, "Oh my God, it's not a cake, it's a cat in the box!"

They ran back into the house finally and panted. Tommy said, "Don't be greedy next time. Sometimes things may have good appearance but in fact it may be harmful."

### The Haunted House

4A Hayden So

One day, I was reading a book called Haunted House. The book was scary, so I screamed a lot. Suddenly, I was in front of the haunted house in the book. I was shocked, but then I calmed down. I wanted to find an exit back to my house, so I started to explore the haunted house.

When I went into the haunted house, I saw a monster roar at me and I was very scared. But I found out the monster wasn't real, it was just a doll. I realized there was a second floor, so I walked up to it. I heard some weird noises when I arrived on the second floor. I was frightened. Suddenly, a shadow appeared, it said, 'Do you want me to lead you to the exit?' 'Of course!' I answered. The shadow said, 'Then follow me!' I followed the shadow. It led me to a bright door. It said, 'This is the exit!' I ran to the exit. Suddenly I heard a noise, 'Wake up! Wake up Hayden! You are gonna be late for your English lesson!'

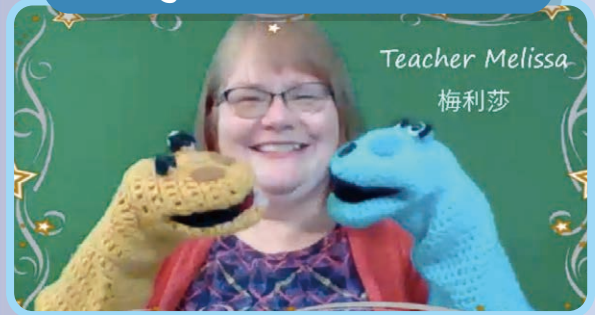

Oh, it was my mum yelling at me. I woke up and I was in my house and it wasn't haunted. It was just a dream.

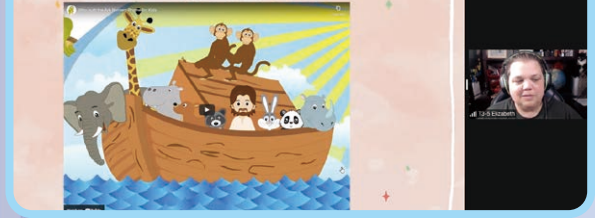

# ENGLISH BIBLE HEROES

In March and April, we had an unexpected special holiday because of the COVID-19 pandemic. During this long holiday, Lutheran Church Hong Kong Synod organized a very meaningful 5-day course called 'English Bible Heroes' on Zoom in order to spread God's love to children in Hong Kong. Twenty-nine P.3 students participated in it and they all had a great time with the native English teachers from all around the world. Let's see what they have experienced in these five days!

# BOOKWORM PROGRAMME (BY SCOLAR)

Our school joined the SCOLAR English Alliance 2021/22: Bookworm Programme on 2<sup>nd</sup> December, 2021 in order to arouse students' reading interests and enhance their abilities in learning English. Four teachers from Teacup Productions, which is a not-for-profit performing arts company, came to our school to host reading activities with creative materials for 60 P.2 and P.3 students in total.

Our students designed and built their own storybooks from scratch using simple sentences and dialogues through interactive activities and games with the teachers. They were also engaged in narrating their stories to their peers and teachers. All students had lots of fun and enjoyed the activities very much.

# TONGUE TWISTER COMPETITION 2021

The popular annual event Tongue Twister Competition was held after Exam Week 1 in November to see who can fire off a set of fun English phrases filled with a confusing combination of words without tripping up.

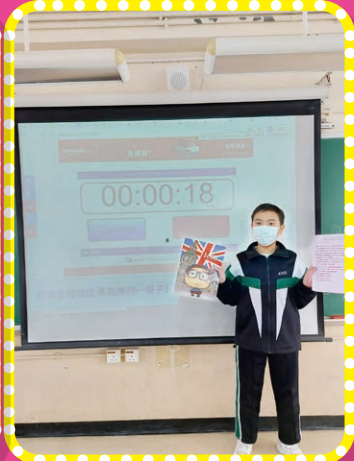

Everyone enjoyed the Tongue Twister Competition!

Due to the pandemic, students had competition against their classmates in the classroom. Afterwards, the battlefield was shifted to Padlet online where students could upload audio recordings of them saying the tongue twisters. Then, students and teachers were invited to vote for the best ones.

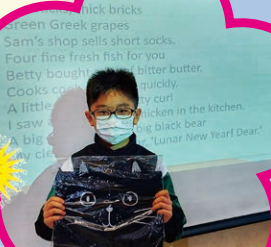

Students are lining up to read the tongue twisters.

# CEO PROGRAMME 2021

The aim of CEO programme this year is to enhance the achievements of high-abilities students in English language learning and their performance in service learning. To develop the CEO programme, we provided intensive training for CEOs on the skills of doing book sharing, making short videos and storytelling. This year, 80 CEOs from P.4-P.6 took part in the training and activities such as storytelling workshops and Tell-a-tale Story Writing and Storytelling Competition.

# Inauguration

After having interviews with all the nominees at the beginning of the school year, 80 students from P.4-P.6 were chosen to be CEOs of this year. An inauguration ceremony was held in September, 2021. All CEOs took an oath to officially become parts of the team and the CEO Programme was launched.

Principal Ng gave a speech at the ceremony.

The inauguration ceremony was live-streamed to all students.

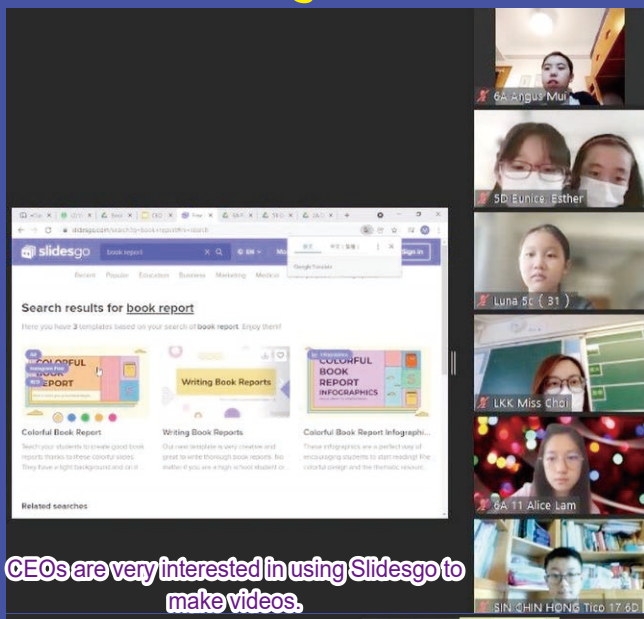

Principal Ng helped the CEO representative put on a sash.

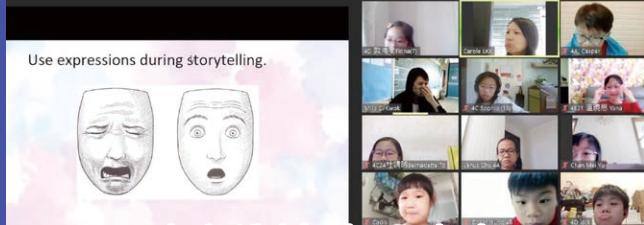

All CEOs made a pledge to officially become parts of the team.

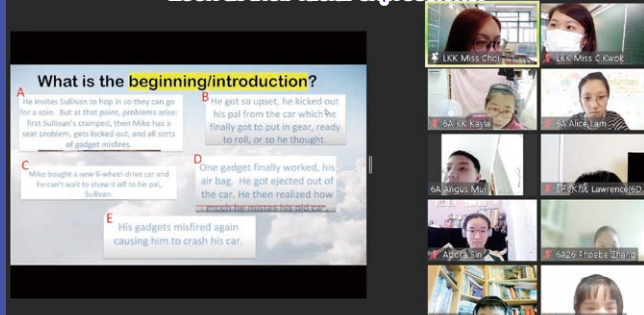

# Training on Zoom

CEOs are very interested in using Slidesgo to make videos.

## My Special Friend

Meet my special friend Stripe, a fuzzy snow leopard plush toy that we got from Melbourne zoo.

Stripe has a beautiful, snowy white fur coat with black stripes along its back and tail. It has big round eyes and a cute button nose. Stripe loves to follow me around everywhere. We sit, study and play together. One of our favourite activities is to play check up at the vet!

At bedtime, Stripe stays close to me, giving me big cuddles and keeping me safe and sound.

Stripe is one of the most special friends that I have, and I love it all the way to the moon and back!

## My Special Friend

My special friend is Dsungaripterus Didi. She is a kind of dsungaripterus pterosaur. She is large and strong. She has a wing span of three meters. She has a low bony crown on the top of her skull. She has long, narrow jaws with pointed tips. She has no teeth in the front part of her jaws. She looks scary but she is kind.

I like to go to the beach with Didi. We play in the sand and have barbecue together. Didi catches seafood and shellfish for the barbecue. We always make sand castles.

After that, Didi takes me to the sky. I sit on her back. I can touch the clouds, breathe the fresh air and we also watch the beautiful rainbow together. It is an unforgettable experience.

Dsungaripterus Didi is my special friend because she always cares about me and protects me. She lives in Junggar Basin. When I miss her, I will call her and she will fly to meet me immediately.

## An Unlucky Day

On 16<sup>th</sup> May 2021, my family went to Kadoorie Farm & Botanic Garden. I thought I would have a great, happy and meaningful day, but everything changed at noon.

We finished lunch and played some running games. During the game, I lost balance and I fell down. I ran too fast so my right shoe flew in the air and fell onto my sister's head. My left knee was injured, and I hoped it would be the end of bad luck.

After leaving the Garden, we went to Tai Po to play on our scooters. We had a lot of fun, but I fell down again. My left knee was bleeding so much. I screamed, 'Mum, Dad, Sister! My knee is bleeding!' Mum grabbed four small bandages quickly and placed them on my left knee. Dad yelled, 'BE MORE CAREFUL NEXT TIME!' I was scared and my knee was painful.

Finally, we went home. I learned to be more careful when playing or doing everything, and I will never ride a scooter again because I was seriously injured on that day.

## Let's fly and embrace your dreams

I am an eleven-year-old gymnast. This morning when I woke up, I looked into the mirror. I found that I became a gold medalist in the 2028 Olympics Games. I was surprised that I got older and taller in the mirror. The girl was me at the age of seventeen. 'Valerie, let's fly and embrace your dreams! You can do it!' She smiled at me. This was the second time I saw her in the mirror.

When I was little, I was inspired by the gymnasts I saw on TV. Then, I took up gymnastic training. I was fascinated with performing routines on the balance beam. When I stood on it, it was amazing that I could fly like a butterfly beautifully. I could finish a series of difficult tumbling and graceful movements on a 10 cm wide beam. It was challenging but I enjoyed every moment on the beam.

However, practicing on the beam was not easy for me. One day, when I was learning a new skill, I was not able to make a perfect landing. I fell from the beam many times and my legs were hurt. At that moment, I felt very frustrated. 'I want to give up!' I cried loudly in the washroom. Suddenly, I heard a voice in the mirror. 'Life is full of ups and downs. Success comes to those who persevere,' She said. Her words deeply inspired me and touched my heart. All my passion and confidence came back magically. Since then, I have strived for the best in every training. I understood nothing could stop me from pursuing my dreams. That was the first time I saw her in the mirror.

Throughout the years, I have become a professional gymnast and I overcame many difficulties. I am not sure whether I can see her again in the mirror. Thanks to myself from the future giving me the strength to chase my gymnastic dream. When I get lost and want to give up, I have learnt to hear my inner voice, 'Believe in yourself. You can do it, Valerie.'

## An Unforgettable Day

Tomorrow, I will go camping by the sea!" I quickly scrambled around the room to pack my luggage.

"Jess, it's time to go to bed!" My mother called.

"Coming!" I yelled back, leaping to my feet.

As I climbed onto my bed, I wondered what this camping trip had in store for us! Another snake? (On the last camping trip, my friend found a snake under a rock. Don't worry, no one got bitten eventually!) Or perhaps, a thunderstorm? Ooo, what if we find a haunted public toilet? (Apparently, I found scary happenings exciting.)

I couldn't sleep because of all of these excitements! Maybe there'd be a shark, or a tsunami ... Then, all my thoughts seemed to fade away. I felt relieved as I drifted off to sleep.

The next morning was quite sunny, so there wouldn't be a thunderstorm then. I sadly crossed it off my 'exciting list of happenings'.

I slowly walked to our meeting spot where I met my friends Tessa, Kim and Heather. We then took a bus to get to the nearest bus stop to our camping spot. After we got off the bus, we walked to the camping spot.

After we arrived at our camping spot, Kim set up the tents since no one else was willing to do it. I took this chance to go and soak my feet in the sea water.

Something caught my eye and I whirled around. It's a cute little puppy! It seemed to be limping. I went over for a closer look. It looked at me with fearful eyes but didn't run away.

"It's okay, I won't hurt you," I said softly.

"The tents are all set! Let's all go swimming!" shouted Kim.

"Oh, Kim, wait! Look what I found? It's a stray dog!" I pointed to the shivering creature.

Tessa glanced at it. "Looks more like a wolf to me. Don't you dare touch me! Fleas, ew."

"I think it has a wound," I declared, ignoring her. "Does anyone have bandages?"

"I can look at it! But are you sure it doesn't bite?" asked Heather.

Tessa snatched the medical kit from her hands and tossed it to me.

"Do whatever you want, just don't bother me," hissed Tessa. I gave her a grateful smile.

The rest of the day went great. The little stray dog healed quite fast. In the meanwhile, we dug up clams and Tessa had fun sunbathing and taking selfies.

"Can I adopt this poor little guy?" Kim stroked the puppy's nose. "Oh! I'll call him Golden!"

"Well, of course! If you're sure the owner doesn't want him anymore..."

"YES! Do you hear that, Golden?" Kim nearly jumped. "You're coming home with me!"

I cannot keep the puppy at my home so I was glad that at least Kim had affection with that little dog.

So, there were no thunderstorms or snakes, but I called this trip unforgettable and worthwhile because I not only helped a life in need and made a new friend too.

## Everything is possible!

"Alohamora," I muttered. The lock on the egg was finally unlocked.

I'm a witch. I'm a clumsy, lazy, cowardly witch. I have no ambition either. I think I would only be able to have a simple life. Like always, I went into the forest to wander aimlessly. As I was walking through the woods, I tripped on a gigantic egg. What an enormous egg! I wondered what was inside. Was it a baby dragon, or a giant bird? I tried to kick it open, but it was as hard as a rock. Just as I was going to give up, I noticed a tiny lock on the egg. Then I tried to use one of the spells I learned in Hogwarts...

"Alohamora," I muttered. The lock on the egg was finally unlocked. My eyes were dazzled by a bright light coming out from the egg the second after it cracked open.

I poked my head in and saw the Infinity Gauntlet! Oh my goodness! It was THE Infinity Gauntlet!!!!!!

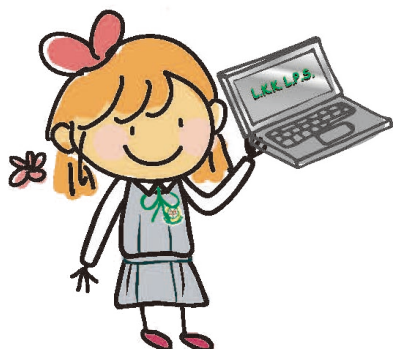

Abruptly, a man stood in front of me and said, "Little witch, hand me that gauntlet right now!" I was shocked, the man who talked to me was Thor, one of the Avengers members. At the same time, there was a husky deep voice coming out from my back, "It's mine!" I knew him, he was Thanos! I held the Infinity Gauntlet tightly. I knew it was my job to keep the gauntlet away from Thanos, even though I am just a little witch.

My brain was empty. I didn't know what was happening, but I knew I couldn't let Thanos have the Infinity Gauntlet. As I didn't know what to do, I heard battle cries. It turned out that the whole team of Avengers came here. Iron Man, Black Widow, Captain America... They were all here fighting with the evil Thanos. The battle was very fierce. It almost destroyed the whole forest and dust swirled in the air. I knew I must do something, even though I'm just a little witch...

I closed my eyes, put on the Infinity Gauntlet and snapped my fingers. Then everything went quiet. Thanos was gone, and the destroyed forest was also back to normal.

I opened my eyes. To my surprise, I was still unharmed. Normally, a little witch like me should be dead because of the power of the Infinity Stones. However, my hand was alright, and not hurt. All of a sudden, I remembered that my mum once told me she used a powerful spell to protect me from any harm. No wonder why I didn't get hurt from using the Infinity Gauntlet.

"You have done a great job, little witch. Do you think you want to join us and protect the world?" I turned around. Iron Man was saying this to me. It seems it would be impossible for me to be a hero of the world, but everything's possible, right?

### Discover Shatin

Do you live in Shatin? Do you want some fresh air? Do you want to see a spectacular view?

Let me introduce you to "Fo Dou Ping". It's a nice place for sunset and you can see a 270 degree view of the whole Shatin District. I discover this place recently but I have already been there twice.

It's about half an hour walk from Shui Chun O Estate. First, take the bus to Shui Chun O Estate. Then find "the Hong Kong Girl Guide Pok Hong Campsite", follow the signs and walk all the way up. The trail is nicely paved and it feels safe. When you arrive, you will see a plateau (a flat area on a high ground) with an absolutely amazing view of both Shatin and Ma On Shan. I recommend bringing water and snacks to sit for a bit while taking in the view. You will probably hear a lot of people saying "Look! I can see my home from here!" So be sure to locate your home if you visit!

## Mr. Ammar

My name is Mr. Ammar Saleh. I am an English teacher. I have two master's degrees in Education from the University of Hong Kong and the University of Glasgow. I am originally from Syria which is located in the Middle East on the shores of the Mediterranean Sea. Syria is considered one of the most ancient inhabited regions on Earth with a very old history. It was even often mentioned in the bible! It is located in a region that is definitely worth reading about and visiting.

I have been working in the field of education for more than 10 years in Europe, East Asia, and the Middle East. I strongly believe that education is the cornerstone upon which civilization is built. Thus, education should be given all the attention and support it requires. I have a strong conviction that teaching is one of the noblest professions as there is nothing more important than enlightening the minds of new generations.

# Our New Teachers

Miss Joanne Lee

Hello! I am a new teacher of LKK family. You can call me Miss Lee. I teach English and General Studies this academic year. Being a teacher is my dream job. I am so happy that I can fulfill my dream and I can work in such a big and warm family. It is really rewarding to see that I am helping my students constantly as well.

I love seeing children's happy faces. I hope my students can learn in a pleasant environment and find learning English fun. Therefore, I always try to make my lessons fruitful and meaningful.

I have a variety of hobbies. I always dance, sing and run in my free time. I like learning new things. My favourite colour is pink. My favourite country is Japan because I like shopping. I keep two lovely tortoises as pets. They are called Max and Sam. They love swimming very much. I like learning new things and I am not facing difficulties. I believe that nothing is impossible for a willing heart. I hope all of you can try your best to face challenges in a positive way.

Miss Regina Chan

Hello students! I'm the new teacher at the school, Miss Chan. I teach English and Music. I am an outgoing person and my hobbies are playing tennis and travelling. I love music and I feel joyful when playing the piano and listening to music. What are your hobbies? Come and share with me.

Becoming a primary school teacher has been a dream career since I was young. I am grateful that my journey of teaching is full of love, satisfaction and joyousness. It is a great encouragement for me when I see the improvement of my students day by day and step by step. This is the power and motivation for me to be a teacher.

Take time to have fun learning English by listening to music, watching a movie and challenging yourself to games in English. There are so many opportunities to learn English while having fun. I hope you can find your way to enjoy learning English.

I look forward to having a class with you soon!

## MY UNFORGETTABLE MEMORIES IN LKK

### Alice Lam, 6A

We transformed from innocent kids to big sisters of our junior schoolmates. Now, it's time to move on and to continue to grow in a bigger world. I have made a lot of friends and learnt not only knowledge in textbooks, but also life lessons of how to become a better person in LKK.

### Phoebe Fong, 6A

'Ding dong Ding dong...' It is our recess time! Some of us go to play basketball, some of us play Hopscotch, some of us eat snacks and some talk with their friends. These all go into the beautiful picture of my sweet memories at LKK.

### Karl Chark, 6B

One of my unforgettable memories in LKK was being the class monitor in P.1. I felt so happy because it was my first time to be a class monitor. I did my best to serve the class and I felt so satisfied.

### Sammi Leung, 6B

I twisted my ankle on Sports Day before the girl's 100-metre race, so I was so nervous. When I was running, I heard my classmates cheer for me. 'Sammi! Run as fast as you can!' I forgot about the pain. In the end, I won the second place. I was touched and grateful.

### Adora Sin, 6C

My unforgettable memory was when I joined the P.6 graduation camp. Although my class lost the scoring points activity, I enjoyed it very much. I hope I can join these activities again when I go to secondary school!

### Peony Fong, 6D

I joined the Sign Language Singing Contest in P.5. We went to school early to practise sign language for a month. It was hard but I enjoyed it very much because it became a secret language between me and my friend. At last, we got the championship. I was thrilled.

### Cheng Cheuk Yin, 6D

I will never forget the school picnic in P.2. After we got to the park, it started to rain cats and dogs. Since we didn't have umbrellas, we held up our mats and started running as fast as a cheetah. The roads were flooded like ponds, and we were all soaked.

### Aidan Fung, 6E

I like to play fun games with my classmates in my recess time. I often bring some yummy snacks to school and share them with my classmates. I had so much fun during recess time.

### Seiko B Fung, 6A

I remember the first time I joined an English drama. We did a great job because we worked hard and practiced every day before the performance. I played the role of a princess. This was a very interesting and unforgettable experience.

### Samuel Law, 6A

Once, I got only sixty marks in a dictation. I was so disappointed. My friend Moses patted on my shoulder gently and encouraged me. I was touched. I treasure my friendship with my classmates in LKK.

### Evone Shi, 6B

I remember the teacher taught us how to make recycled paper in the ECA class. She asked us to prepare some materials such as newspapers and pencils. She was very patient in the process of teaching us. I enjoyed doing the experiment.

### Juston Wong, 6C

I will not forget Miss Choi because she always cheers me and my classmates up. One day, I was feeling upset because no one wanted to play with me. I sat on the bench alone. Miss Choi saw that so she walked towards me and cheered me up.

### Phoenix Yeung, 6C

Every year, my school holds the Sports Day. The atmosphere on that day was very lively. Students were jumping, running, throwing bean bags and cheering everywhere. We all enjoyed the moment.

### Ivan Lau, 6D

I once got full marks in my Math exam. I worked very hard before the exam. I did a lot of exercises and revision every morning. When I was doing the exam paper, I felt confident.

### Jasmine Chow, 6E

In P.5, my team and I got the gold award of the Hong Kong Inter-Primary School Sign Language Singing Contest. I will never forget the moment when I stepped on the podium and received the award. It just meant so much to me.

### Anna Kwong, 6E

The Sports Day in P.4 was very memorable because it was my first time being a part of the girls' relay race. I was very honored to be a part of this race. Although I didn't win a medal, I learnt that winning or losing doesn't matter as long as you try your best.

# Parents' Sharing - Faithfulness, Gentleness and Self-control

## 1A Taliyah Chan's parent - Karen Lee

As a mother, I often ask questions on how to be a better role model for my daughter. The words 'faithfulness', 'gentleness', and 'self-control' may be relatively simple to comprehend. However, in reality, it is rather difficult to display these qualities when the pressure to perform gets tough, especially when it comes to raising a child, where increasing demands and responsibilities begin to disrupt work-life balance.

Our children are our legacy and it is totally understandable that we would do everything in our power to help them strive for both academic and developmental excellence. Nonetheless, we should remember that each child is unique and there is no one size that fits all solutions. What is of utmost importance to me is seeing my daughter continually learning and improving. I believe, with the right kind of support and guidance, each child will be able to realise their own set of potentials at their own pace as they navigate through the journey of life.

Lashing out when our child is not performing or behaving the way we would like them to is never appropriate nor effective. The key to developing the right attitude lies within our ability to challenge ourselves to control the way we respond in situations that are out of our control. Words are extremely powerful and we should all think carefully before we speak. Listen not just to respond or react, but with the intent to understand.

Human beings are full of emotions and we can sometimes be overtaken by anger. We should always remind ourselves to make allowance for our children's misbehaviours or wrong doings. Be ready to listen and forgive. Gentleness allows us to care for and love our children. This unconditional love in turn helps our children build trust in us, knowing that they can always count on us, through good times and bad.

## 5A Tina Kwong & 6E Anna Kwong's parent - May Ngan

The journey of growing up has been tough for parents as well as the children. There are always uncertainty, struggling and difficulties, while on the other hand, there are also expectations, surprises and happiness. What helped me through the journey is the faith in God, who grants me two lovely and healthy daughters with grace.

I have grown with my girls since they were born. They grow both physically and psychologically and I grow mentally. At their infant and toddler age, full love and care was the way, but after getting to their childhood, teaching and showing them the core values of life has been essential. To me, being gentle and with good self-control and self-discipline are two key values that they must equip at childhood.

I still remember there was one time when the two little sisters fought for a princess story book. The elder one claimed that it was her story book that couldn't be shared with her young sister. She insisted it was hers. Here was my response: "Ok babe, I understand it now. I am your mother and I am your sister's mother as well. If yours couldn't be shared, let's cut your mother into two pieces. Which part do you want?" She was little but still could understand what I truly meant. My rule of thumb is simple. We don't possess abundant materials. We give and share. Sharing could be more, but not less.

As for self-control and self-discipline, these two values have been practised since they were in kindergarten. I never have to worry about their homework because the first thing they do after school is always homework. Without finishing the homework, they can do nothing else, while in contrast, they can do whatever they want to do once the homework is done. This is one of the strict rules at home, and they handle it very well. With enough practice, I am sure they will then know how to prioritize their work and what to prioritize in their life.
